

thomiz.dev DAO

"Focusing on coins & tokens making a real change in the crypto ecosystem"

# Our goal:

Our goal is to list and bridge as many coins or tokens that are making substantial changes to create a more decentralized future. We will not be listing "memecoins" or other tokens that do not bring real value and utility to this space.

# Roadmap

## Q1

- Launch DAO
- Bridge and list LUNA
- Bridge and list UST
- DAO for two more tokens

## Q2

- List 3 - 5 utility tokens from other chains

## Q3

- List 3 - 5 utility tokens from other chains
- Start distributing fees from the gateways to members of the DAO

## Q4

- List 3 - 5 utility tokens from other chains

# Types of coins we will list:

Tokens such as \$UST promoting further decentralization

Farm tokens such as \$CAKE that help this flourishing ecosystem

rDAOs: some of the leading innovation today, the next step of DeFi

DAO tokens that show the true potential of decentralized governance
